**WELL INVESTIGATION PROGRAM - SOIL GAS PROBES RE-SAMPLING
(FILE NO. 111.0788)**

We have received your consultant's (Environmental Support Technology) letter dated August 11, 1994, proposing to re-sample soil gas from the existing two 50-foot-deep nested soil gas probes to determine the future course of investigative effort. We have no objection to the proposal provided that all work is completed as specified in our requirements outlined in our "Workplan Requirements for Soil Gas Investigation".

Please notify us at least ten (10) days before commencement of the re-sampling, so Regional Board staff can be present.

Three (3) copies of the technical report are due to this Regional Board by September 23, 1994.

If you have any questions regarding this matter, please contact Mr. Jimmie Woo at (213) 266-7591.

HUBERT H. KANG
Senior Water Resource
Control Engineer
